What we do

Research

More and more, BMT nurses are conducting research on topics based on clinical practice, and are formulating their own research agenda.

Education

One of our goals is to expand and optimise existing educational projects, making them accessible to all haematology nurses across Europe.

Info for Patients

Get info compiled for patients, including practical guides and information about patient associations and accreditation.

Subscribe to news

Educational Resources

The development of excellent educational resources for nursing professionals around the world is one of the top priorities of the Nurses Group. In addition to the new EBMT Nurses Textbook, published for the first time in 2018, we have developed a series of online Learning Programmes and other materials designed to improve patient care and share current knowledge and best practises.

EBMT Nurses Textbook

The EBMT Nurses Textbook is the first book of its kind written by and for nurses active in the field of HSCT.

E-materials and Learning Programmes

The Nurses Group has created Learning Programmes and other e-materials useful to professionals that can be

Document Centre

Over the course of its existence, the EBMT has amassed a volume of information of interest to the Haematopoietic Stem Cell Transplantation community.

Your Essential Guide to Stem Cell Transplantation Nursing: The EBMT Textbook for Nurses!!

Starting your career in stem cell transplantation can be as exciting as it is challenging. You're stepping into a field where precision, innovation, and empathy come together to change lives. But where do you turn for guidance, best practices, and insights tailored specifically for nurses in this field?

📖 Enter the EBMT Textbook for Nurses—the go-to resource for early-career nurses working in stem cell transplantation across Europe. Available in French, Italian, Spanish and German language!

Here's why this textbook should be your new best friend:

📖 **Comprehensive and Practical:** From understanding conditioning regimens to managing complications like GVHD, the handbook offers clear, actionable guidance that you can apply directly to your day-to-day work.

👩 **Nursing-Focused:** Written by nurses, for nurses, it addresses the unique challenges and opportunities we face in this highly specialized area.

📖 **Evidence-Based:** Packed with the latest research and best practices, it ensures you're staying at the forefront of care.

🌍 **Global Perspectives:** With contributions from experienced nurses from across Europe, it reflects the diverse approaches and expertise of the international EBMT community.

💡 Whether you're learning to navigate complex cases, looking to deepen your knowledge, or seeking inspiration for your next steps, the EBMT Textbook for Nurses is a must-have tool.

👉 Have you read the textbook yet? What's been the most helpful insight for your practice so far? Let's hear about your experiences! Check it out:
